Motcomb Street  
Belgravia  
London UK

Omell Galleries  
46 Albermarle Street  
Mayfair  
London UK

### Artist's Statement

My mission is to make powerful artworks that communicate the connectedness of our world; exploring different ways to think about existence.

My work examines the forces that animate and act upon us, expressing the emotional energies that affect our lives. I aim to create work that encourages the viewer to sense the unseen currents that underpin moments, people and places.

In the words of the composer John Cage: "Art should awaken us to the very life we are living".
